

Statement on Productivity Growth August 8, 2000

Today's announcement that productivity rose at a 5.3 percent annual rate last quarter is a remarkable confirmation of the continued strength and vitality of the U.S. economy. Over the past 3 years, productivity has grown 3.3 percent annually—more than twice the growth rate of the previous two decades. Rising productivity has been the key to the combination of strong growth, rising wages, and low core inflation underlying our record economic expansion. Today's news is further evidence that our commitment to fiscal discipline, opening markets, and investing in people has helped lead to an unprecedented era of business investment, innovation,

and technological advance that is providing new opportunities for millions of Americans.

This continuing productivity growth underscores the importance of maintaining the fiscal discipline that has been so crucial to this investment-led economic expansion. The majority in Congress continues to pursue a series of misguided tax breaks which, taken together, would bring America back to the era of deficits and knock us off the path of fiscal discipline that has led to this prosperity. Their approach is wrong for America. Let's work together to ensure that our strong economy will continue to grow.

Statement on Signing Legislation To Expand the Women's Rights National Historical Park August 8, 2000

I am pleased today to sign S. 1910, bipartisan legislation to expand the Women's Rights National Historical Park, in Seneca Falls and Waterloo, New York, with the addition of the home of Jane Hunt. In 1848 early supporters of women's rights, meeting at Hunt's home, resolved to convene the Nation's first women's rights convention. A century and a half later, the addition of the Hunt House to the historical park is a fitting tribute to all those who have engaged in the struggle for women's rights. With this

legislation, this historic home will be purchased by the National Trust for Historic Preservation and donated to the National Park Service. Jane Hunt made a tremendous difference in the lives of American women, and this legislation will ensure that her efforts are remembered and honored in the years ahead.

NOTE: S. 1910, approved August 8, was assigned Public Law No. 106-258.

Memorandum on the Impact of Wildland Fires to Rural Communities August 8, 2000

Memorandum for the Secretary of Interior, the Secretary of Agriculture

Subject: Impacts of Wildland Fires to Rural Communities

We are a little over halfway through the 2000 fire season and all indications are that it will be the worst season in 50 years. As of August 7, 2000, 63,623 wildland fires have so far this

year burned more than 4 million acres at a cost of \$500 million in firefighting expenses. There are up to 300 new fires every day, and Federal, State, and local agencies are managing 50 fires over 1,000 acres in size. The current weather conditions following the prolonged drought in much of the west are drying out millions of acres of forest and rangeland, and
